Quickly Train Employees to Do a Job Correctly, Safely & Conscientiously

September 2019

Sept. 10, 8:30--10:30 am | Sept. 12, 8:30 am—12:30 pm | Sept. 17, 8:30 am—12:30 pm

Manufacturers Resource Center
961 Marcon Boulevard, Suite 200
Allentown, PA 18109

Overview:

Through TWI Job (JI) Instruction, MRC offers a dynamic program of hands-on learning and practice, imparting essential skills for supervisors, team leaders, and anyone who directs the work of others. Job Instruction training is designed to develop basic stability of your processes (Standard Work). This course teaches the method to instruct an operator how to perform a job correctly, safely and conscientiously.

Benefits Featured:

- Teaches supervisors how to correctly train employees which reduces training time
- Generates cooperation and positive employee relations
- Establishes and maintains standardized work with improved methods
- Solves problems efficiently and effectively
- Results in less scrap and rework
- Creates a safe work environment—fewer accidents
- Increases job satisfaction

Why it's relevant:

Job Instruction includes effective methods to help employees quickly remember how to do a job beyond simply "telling and showing" them. JI creates a standard training process.

What's in it for you?

With JI you gain the benefits of consistent training while developing a stable process to apply continuous improvement. This creates a solid foundation for any continuous improvement program with the benefits of reduced training time, less scrap and rework, fewer accidents, and increased job satisfaction.
