UGI Save Smart Commercial Custom Rebate Program

Presenter:
Chris Hurwitz
Senior Program Manager
UGI Save Smart Rebates

About Chris Hurwitz: Chris currently serves as Senior Program Manager for the UGI Save Smart Commercial Custom, Mid-stream Commercial Rebates, Residential Retrofit, and Residential New Construction Programs. Chris is responsible for oversight of all program operations, operational and strategic process development, and cost-effectiveness and savings calculation review and verification.

Chris has a Project Management Professional (PMP) Certification from PMI and a master's degree in Community and Regional Planning from Temple University in Philadelphia, PA, as well as a bachelor's degree in Anthropology and Political Science from SUNY Plattsburgh.

About UGI Save Smart:

The UGI Save Smart program encourages UGI customers to reduce their energy consumption by providing financial incentives to customers who upgrade gas-powered systems and/or appliances to more efficient and cost-effective equipment and building measures.

*Shorten Paybacks & Receive Financial Incentives
on Building Improvements & Gas-Powered
Equipment Upgrades*

**September 17, 2020 | 10:00 -11:30 AM
Webinar**

Registration is required in advance of this webinar. Click below.

https://us02web.zoom.us/join/register/tZ0vcu6grj8qG9J6brUXAiau12nXqX_iAYUM

After registering, you will receive a confirmation email containing information about joining the meeting.

This UGI Save Smart Rebate presentation will provide a detailed overview of available incentives for cost-effective natural gas energy efficiency projects from UGI Gas. Energy efficiency upgrades can lower building operating costs by 20-30% with new equipment increasing efficiency and requiring less maintenance.

Currently this program is available to existing and new construction UGI Gas commercial customers in Pennsylvania with a rate class of N, NT, DS or LFD. Commercial, Industrial, Agricultural, and Multi-family projects may submit projects for review.

Why you need to attend: Attendees will learn about UGI Save Smart incentives, what makes a project cost effective, what is required to participate, and recent project examples.

Target audience: Facility/Building Managers & Engineers, Operations Directors & Managers, Finance Directors & Managers, and others..

Cost: Complimentary / No cost – *This event is made possible thanks to funding assistance through the MEP National Emergency Assistance Program.*
