

Project Management Certificate Program 2023

MRC's Project Management Certificate Program will teach the basics of project management terminology, creating a project charter, defining project scope, developing a project plan & work breakdown structures (WBS) using MS Project, and leading and communicating with teams.

Attendees are typically new to project management, or in the early stages of their project management careers. However, any professional can benefit from efficient and effective project management. After completing the program, attendees will know how to set realistic expectations with project teams, build schedules, allocate resources, lead change and manage budgets.

Course Highlights

- Project Management Basics
- Process Groups & Processes
- Leadership & Coaching
- Project Scope Management
- Creating a Gantt Chart
- Project Quality Management
- Project Schedule Management
- Procurement Management
- Creating a Business Case
- ...and much more!

This course will satisfy the 35-hour requirement to sit for the PMP designation. Visit mrcpa.org/events for full course details.

Who Should Attend

Project Managers, Engineers, Purchasing, Production Planners, etc. Anyone who is involved in managing projects/activities and can benefit from setting expectations, building schedules, allocating resources and managing change.

Instructor | Leo Gilroy, Director Strategy & Innovation NEPIRC

Leo's career encompasses over twenty years of diverse industrial and DoD experience with professional positions in engineering, product/business development, marketing, and sales. He is highly experienced in building relationships, understanding customer requirements, and leading teams to meet common objectives. Leo graduated from Temple University, where he obtained a B.S. Degree in Electrical Engineering Technology. Additionally, Leo graduated magna cum laude from the University of Scranton, with a master's degree in Business Administration. Leo recently completed Executive Education at Wharton Business School.
