Presenter

Kristen M. Morgret, CSP  
Senior Safety Consultant  
[www.RETTEW.com](http://www.RETTEW.com)

Kristen Morgret is a Senior Safety Consultant with more than 20 years of experience in the safety field. She provides consultation services for high-hazard industries in the realm of fall protection, industrial hygiene, process safety management, and other complex issues.

**RETTEW** is an industry-leading engineering consulting firm and offers more than 600 engineering, environmental, surveying, planning, safety, and related technical services. They serve a diverse range of growing markets, from transportation and energy to development and manufacturing. Their consultants ensure streamlined operations and safety compliance while following all the right regulatory steps. In an industrial setting, they design processes and analyze water treatment options. Their people know power, underground utilities, stormwater, and pipelines.

# OSHA 10

**November 11-12, 2019**  
**8:30 am—2:30 pm**

**Location:**  
Manufacturers Resource Center  
7200A Windsor Drive | Allentown, PA 18016

This OSHA 10 course is conducted over two days and is ideal for safety coordinators, safety committee members, human resource managers, supervisors, and anyone else with responsibility for safety compliance within a facility. The course covers topics such as an overview of OSHA; hazard communications, including GHS requirements; personal protective equipment; walking and working surfaces; machine safeguarding; material handling; fire prevention and protection; confined spaces; and ergonomics. Upon completion, each student will receive a 10-hour card issued from the Department of Labor Occupational Safety and Health Administration (OSHA) that does not expire.

## **OSHA 10-HOUR GENERAL INDUSTRY OUTREACH**

Provision of an OSHA authorized 10-hour General Industry outreach class in accordance with the OSHA Outreach Training General Industry Safety and Health Program guidelines. This course may include the following:

1. OSHA Overview
2. Hazard Communication, including GHS
3. Confined Space Entry
4. Permit Required Confined Space
5. Personal Protective Equipment
6. Fire Prevention & Protection, Emergency Action Plans
7. Fall Protection
8. Electrical Safety
9. Fall Protection
