MLI: Manufacturing Leadership Institute 2022

Strategic Leadership for Growth & Innovation

A PROGRAM DESIGNED FOR CURRENT AND FUTURE LEADERS

In 2006, the Manufacturers Resource Center (MRC) worked in partnership with Lehigh University to establish a top-line certificate program to educate the region's current and up-and-coming leaders in all aspects of Strategic Leadership. The MRC has graduated over 250 participants through the Manufacturing Leadership Institute (MLI) program since that time. MLI is designed to develop and enhance the skills of our region's leaders who will strengthen their company's competitiveness, drive growth, and create sustainable business models into the future.

COURSE DESCRIPTIONS

Thinking Like a Leader - In the opening session we will be presenting an overview of leadership attitudes and exploring our understanding of ways of thinking, doing and being that serve growth and innovation. We will interactively survey your own expectations of the process and assess the direction of MLI as it relates to your company. Each company will provide a short introduction of its products and services.

Creating the Right Vision – The current vision statement of the enterprise is explored (if one exists) and evaluated on its capability to define the future and inspire the workers who help achieve that vision.

The MLI experience has uncovered opportunities for improvement in every aspect of our company and, to date, is one of the most powerful tools we have. The investment will pay dividends for years to come!"

~Ken W. Kratz, Vice President
Bracalente Manufacturing Group

Supply Chain

Management – This course takes a high-level view at the design and effective operation of supply chains and what is needed to ensure a culture of continuous improvement. At completion, each participant will be equipped to link a firm's competitive strategy to elements of supply chain design, identify key issues and decisions in supply chain management, explain how critical supply chain factors affect financial performance, and discuss the impact of current business trends from a supply chain perspective.

The Role of Leadership in a CI Culture Transformation - Develops you and your organization into high-performers that can deliver sustainable business results. Leadership is the most frequently identified gap in a CI Culture Transformation. This workshop will explore the role of leadership in a culture transformation, facilitate identification of gaps in the current state of you and your team, and then give practical methodologies and processes to address these gaps.

Strategic Financial Management – This course builds a broad understanding of the critical factors that influence success or failure in any organization. Working in teams, participants develop strategy and resolve business challenges. No matter which resolutions they come up with, the Interplay experiential learning process make clear which decisions and activities have the greatest business impact and contribute to the company's short and long-term success.

Leveraging Human Capital – This course provides an understanding of the relationship of Human Capital to high morale, customer service and the bottom line. From recruitment of talent, through training and retention, learn how a business culture is created and nurtured.

21st Century Sales Strategies - Explore the latest marketing and sales strategies to capture new business and increase repeat business from current customers. Small and medium-sized businesses have access to a plethora of resources available today that allows them to compete with the big players. Yet, with so many choices, how do you decide what really works and what doesn't for your unique situation? Get the answers you need so you can effectively differentiate your products and solutions in today's hyper competitive and price-driven market. By developing a cohesive marketing and sales approach for your organization, you and your team can win more business, at higher profit margins, and with less effort.

Organizational Leadership & Culture – Leaders can rely on themselves to have all the answers, or they can motivate and energize their workforce to high performance standards, thus leveraging the strengths and synergy of the entire team and carrying the organization far beyond one person's individual talents. Values-based leadership is the means to create a high energy, committed workforce that achieves incredible results. Powerful, effective leadership has always been important, but in critical financial periods it is even more important. This class is practical and theoretical emphasizing and teaching specific behaviors that enhance leadership effectiveness and creates a high-performance culture so that a company may be best positioned for future growth opportunities.

Strategy and Operational Decision Making – The process of decision making will be examined in detail. The morning will begin with a lively introduction into decision science. This is followed by a detailed discussion of strategic decision making focused on competitive positioning, product and market priorities and implementing and aligning to the company or business unit strategy. The afternoon will be devoted to building operational decision-making skills by using decision process tools to achieve more effective decision outcomes.

Creativity & Innovation – Based on Shawn Doyle's bestselling book, this highly engaging and thought-provoking program helps leaders learn cutting edge tools, methodologies and techniques for leading and increasing creative thinking and ideation with their team at work. Leaders will also learn best practices used by creative teams worldwide for evaluating creative ideas objectively. This workshop also examines how to create a new culture of innovation and creativity to drive performance and productivity.

Change Management - This program helps individuals identify and develop the skills that make them more effective at leading change, whether the change is one they have chosen to initiate or one they have been asked to implement. Additionally, attendees gain an understanding of change reactions and how to deal with them.

Company Growth Direction – Opportunities throughout the MLI program will help participants evaluate their organization in ways that could improve their company's current state. Based on the materials covered, participants will develop and present new company initiatives aimed at organizational growth. The MLI program will culminate in a peer-based presentation and feedback session that allows participants to assume a leadership role, and to articulate a new vision and an action plan to achieve their goals.

"The MLI program is one of the best courses I have experienced. The instructors held our attention and presented valuable strategic leadership methods that can be immediately applied in all areas of the company. I highly recommend sending key leaders to this program. It will be an invaluable investment in your company's future."
