

Santa's STANDARD WORKshop

Lean Manufacturing, Standardized Work,
and TWI Job Instruction in Action

Dec. 10 – 11, 2024

Lean Manufacturing, Standardized Work, and TWI Job Instruction in Action. *Build Bikes. Apply Lean. Make a Difference.*

Join us for a hands-on **Lean Manufacturing Workshop** where you'll not only enhance your understanding of Lean manufacturing and Training Within Industry (TWI) but also contribute to a greater cause. At the end of the class, all bikes assembled will be donated to local charities, helping children and families in need.

Key Benefits:

Visit mrcpa.org/events for full course details.

- **Hands-On Learning:** Design and build a complete standardized assembly process while applying Lean principles in real-time, improving your efficiency and process understanding
- **Master Standardized Work:** Use MRC's Standard Work techniques to break down tasks and create clear, effective, standardized job methods for consistent results
- **Improve Process Flow:** Learn to reduce bottlenecks and create a smooth, continuous flow during the assembly process
- **Continuous Improvement:** Use Lean tools like 5S, Kanban, Poke Yoke to identify improvements in real-time, adjusting for better quality and higher efficiency
- **Enhance Training:** Apply TWI's Job Instruction (JI) method to train others clearly and effectively, ensuring every team member can follow the process accurately

Bonus: Give Back to the Community

All bikes assembled during the workshop will be donated to local charities, making your learning experience even more meaningful. Not only will you walk away with practical Lean and TWI skills, but you'll also help brighten someone's day by donating a brand-new bike.

Who Should Attend

This class is ideal for:

- Continuous Improvement team members wanting to practice their improvement skills
- Manufacturing team members looking to enhance their improvement efforts
- Anyone passionate about continuous improvement and giving back to the community
