

Automation & Manufacturing TECHNOLOGY SHOW

JPMorganChase

cresa

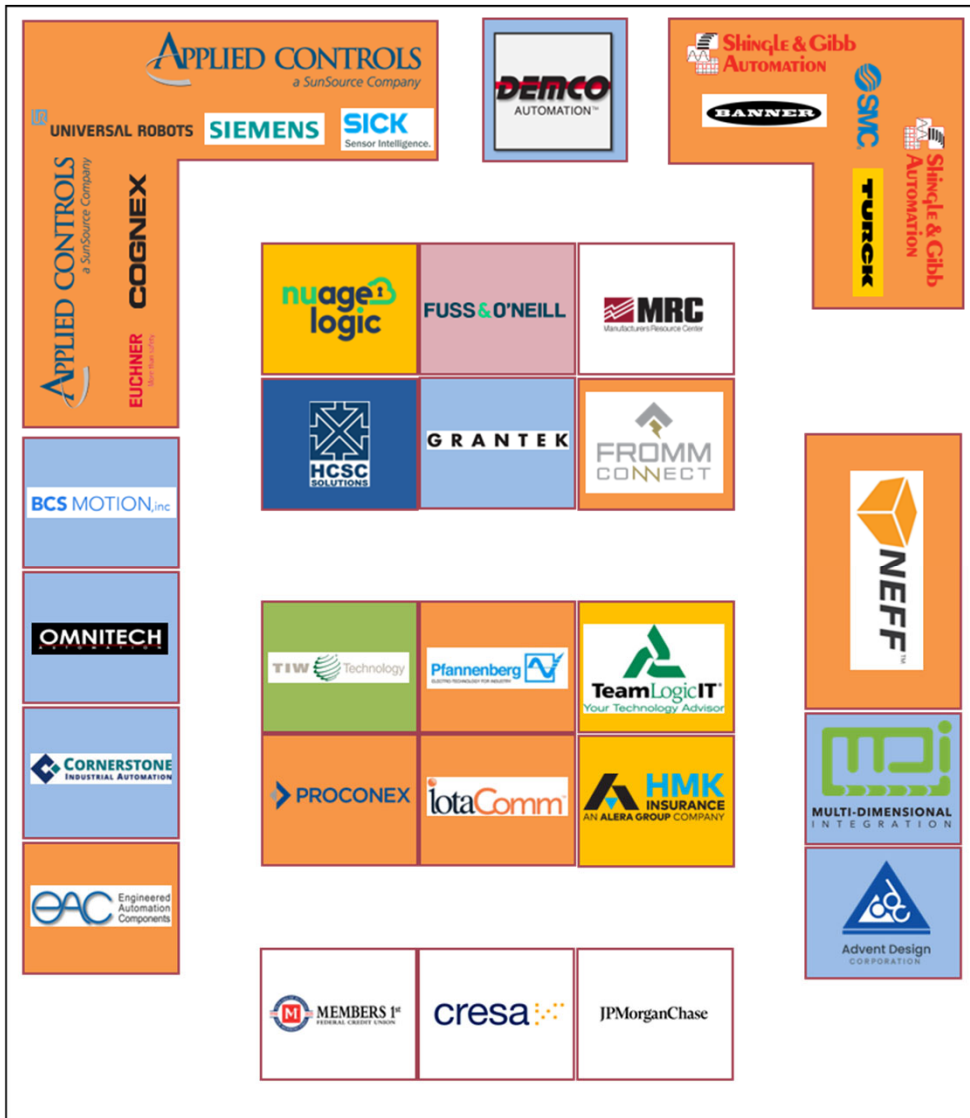

MEMBERS 1st
FEDERAL CREDIT UNION

Apr. 24, 2025

Agenda

- 7:30-8:00 AM Registration & Breakfast
- 8:00-8:15 AM Sponsor Introductions | **Diane Lewis**, VP Manufacturing Solutions & Center Operations, MRC - J.P. Morgan Chase | Cresa | Members 1st Federal Credit Union
- 8:15-8:20 AM Speaker Introductions | **Shawn Furman**, Director, Automation and Manufacturing Technology Strategy, MRC
- 8:20-8:45 AM Laying the Foundation for Smart Manufacturing | **Jeff Craig**, Fuss & O'Neill
- 8:45-9:10 AM The Value of Integrated Systems | **Mike DeRosier**, Advent Design
- 9:10-9:35 AM Case Studies of Successful Smart Manufacturing Implementations | **John Gillan**, Proconex
- 9:35-9:50 AM Panel Discussion – What the Future Holds for Smart Manufacturing and Q&A
- 9:50-12:00 PM Technology Demonstration and Discussion on the Floor

- Data Analytics
- ERP, ERP Selection Assistance, Office Automation
- Industrial Automation Solutions
- IT Cyber Security & Risk Management
- Machine Builders and Systems Integration
- Training
- Sponsors

AMT Show Exhibitors

Meet our Show Exhibitors

IT Cyber Security & Risk Management

- **HMK Insurance Group** Provides cyber liability protection along with any other insurance or risk management needs you may have.
- **Nuage Logic** Focuses on cloud hosting and managed IT services to become your company's virtual datacenter.
- **TeamLogic IT** A national provider of technology services and solutions for businesses of all kinds.

Data Analytics

- **HCSC Solutions** Provides business intelligence tools and interactive dashboards that transform raw data into actionable insights.

ERP, ERP Selection Assistance, Office Automation

- **TIW Alere** A versatile ERP provider that fits almost any industry and receives exceptional reviews from its customers.

Industrial Automation Solutions

- **Applied Controls** A local high tech automation distributor and solutions provider.
 - **Cognex** Barcode reading, powered by AI unmatched reliability, ease of use, and end-to-end support.
 - **Engineered Automation Components** Represent automation components and assembly equipment in the Assembly Automation and Process Control industries.
 - **Euchner** Industrial safety engineering specialists that design and produce customized products and solutions that minimize hazards and risks, protecting people and processes across various sectors by guarding machines and installations.
 - **SICK** Optimize your logistics processes from goods receipt, warehousing through to distribution with modern sensor solutions.
 - **Siemens** Leverages Industrial AI to analyze large datasets, integrate physical and digital systems through digital twins, and operate smart, automated machines with advanced software.
 - **Universal Robots** Provides solutions that help your team increase equipment uptime, improve performance, boost productivity, and maintain a safer, more efficient workplace.
- **FrommConnect** Provides comprehensive service solutions that enhance efficiency, reduce labor costs, and deliver technical support and system upgrades.
- **NEFF** Offers top-quality products from leading manufacturers, supported by a team of engineers who help clients improve process efficiency and business profitability.
- **iotaComm** Propels the next phase of IoT wireless connectivity and data analytics solutions.
- **Pfannenberg** Global manufacturer of thermal management, liquid cooling solutions and signaling technologies.
- **Proconex** a leading provider of process automation control systems, valves and control devices, and related technologies and services in the Mid-Atlantic region.
- **Shingle and Gibb** East Coast's premier industrial automation distributor.
 - **Banner** Offers products and solutions including sensors, wireless solutions, machine safety, indication and LED lighting.
 - **SMC** A leader in pneumatic technology, provides automation solutions to enhance industry efficiency.
 - **Turck** specialist in sensor, fieldbus, connectivity, interface technology, human-machine interfaces (HMI), and RFID systems.

Machine Builders and Systems Integration

- **Advent Design** An innovative leader in robotics, safety, and automation for over 40 years.
- **BCS Motion** Robotics and Motion automation solutions.
- **Cornerstone Industrial Automation** specializes in developing software solutions and integrating hardware for process control, automation, IT/OT network and data acquisition applications.
- **DEMCO Automation** Offers a range of services from providing entire turnkey automation systems to on-site service for existing equipment.
- **GRANTEK** Automates manufacturing operations and integrates business systems for life sciences, pharmaceuticals, food & beverage, and CPG industries.
- **Multi-Dimensional Integration (MDI)** Systems integrator specializing in upgrading existing automation systems, designing new ones, or providing support for a time-sensitive issue.
- **Omnitech Automation** A turn-key solutions provider of automated manufacturing equipment and services.

Training

- **Fuss & O'Neill** A multidisciplinary engineering firm that provides client-specific, forward-thinking, and holistic solutions.
