

# OSHA 10-Hour General Industry Outreach Program

Feb. 19 – Feb. 20, 2026

Enhance Workplace Safety with Our OSHA 10-Hour General Industry Outreach Course!

Are you responsible for safety compliance within your facility? Want to equip yourself or your team with the essential knowledge to ensure a safe work environment? Look no further! Our OSHA 10-Hour General Industry Outreach Course is the perfect solution.

Conducted over two action-packed days, our expert instructor, Jerry DeRosa, will cover a comprehensive range of topics, including an overview of OSHA, hazard communications, personal protective equipment, machine safeguarding, fire prevention and protection, electrical safety, fall protection, and hazardous materials.

Participants will receive an OSHA-10 completion card for attending and completing the program. This industry-recognized certification will enhance your credentials and demonstrate your commitment to workplace safety.

## Course Highlights

- Introduction to OSHA
- Electrical
- Hazard Communication
- Personal Protective Equipment
- Walking & Working Surfaces, Including Fall Protection
- Machine Guarding
- Safety and Health Program
- Hazardous Materials
- Bloodborne Pathogens
- Fall Protection
- Exit Routes, Emergency Action Plans, Fire Prevention Plans, and Fire Protection

## Who Should Attend

This course is designed for safety coordinators, safety committee members, human resource managers, supervisors, and anyone else with responsibility for safety compliance within a facility.

### Instructor | Jerry DeRosa | CHMM

Jerry DeRosa is an OSHA-Authorized General Industry Outreach Trainer and Certified Hazardous Materials Manager (CHMM) with more than 40 years of experience in environmental, health, and safety (EHS) leadership. He provides comprehensive EHS training, program development, and risk-minimization consulting across industries including oil and gas, manufacturing, engineering, waste remediation, and property management. Jerry has served as Director of EHS for multiple production and midstream companies and is recognized for developing corporate EHS programs, SOPs, and training that drive compliance and operational efficiency. He is also a committed mentor, trainer, and active contributor to professional and nonprofit organizations.
