# Alumni Testimonials

"The MLI experience was the best course I have had in my professional career. Learning to think like a leader vs. a manager has been an awakening experience. Change has occurred immediately at ProtoCAM since graduating. I would recommend this course to anyone looking to change the culture within a company or just better themselves as a leader and a person."

-Ed Graham, ProtoCAM

"Hands down the very best leadership course offered in the Lehigh Valley, with a fully rounded curriculum. This course fills the gaps in any organization and is a "must have" for those wishing to take the business to a new level."

-Alan Fries,  
Packaging  
Corporation  
of America

"The MLI experience was the best course I have had in my professional career. Learning to think like a leader vs. a manager has been an awakening experience. Change has occurred immediately at ProtoCAM since graduating. I would recommend this course to anyone looking to change the culture within a company or just better themselves as a leader and a person."

-Andrew Hopton, Hydac USA

"My experience with the MLI program was outstanding. The instructors are top notch professionals that provided our class with practical, as well as state-of-the-art curriculum. The combination of instruction, structured exercises, and class interaction made for an excellent learning experience. I would highly recommend the program."

-Rick Seibert, Sharp

"I encourage manufacturing and business leaders to attend MLI. The tremendous advantage this course provides is the understanding and application of principles (vision, strategy, communication, and finance) from a broad business spectrum from fellow participants."

-Hugh F. Boyd IV, Lutron Electronics, Inc.
